

Working with Agricultural Data: Current Practices

Livestock

**THE
SIMPSON
CENTRE.**

THOUGHT
FOR
FOOD.

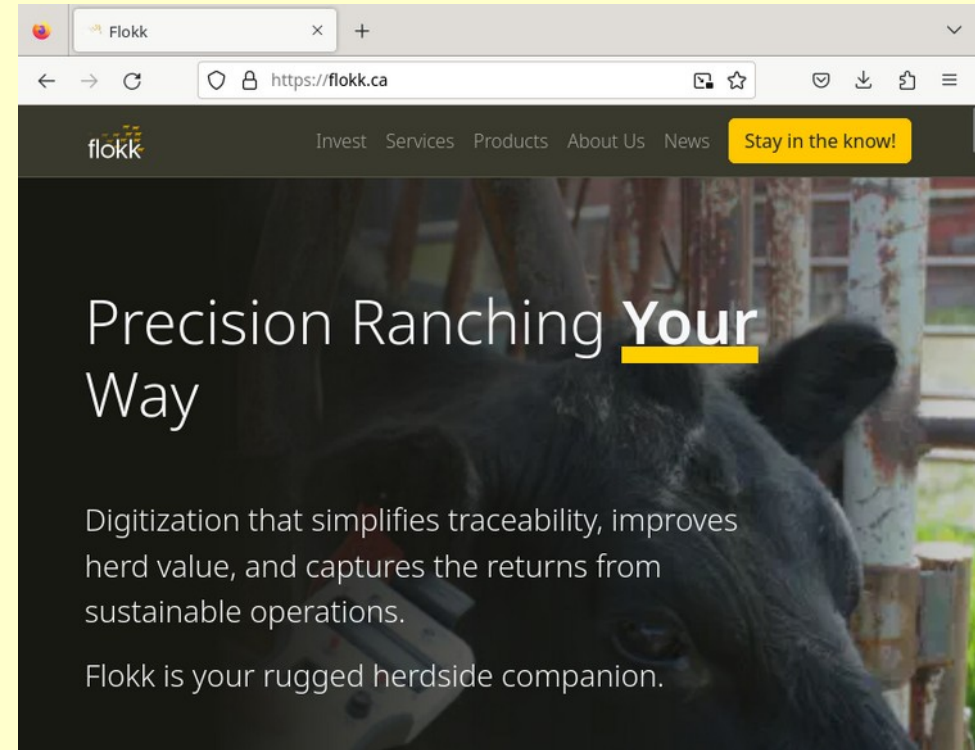

Introduction

Mark Olson

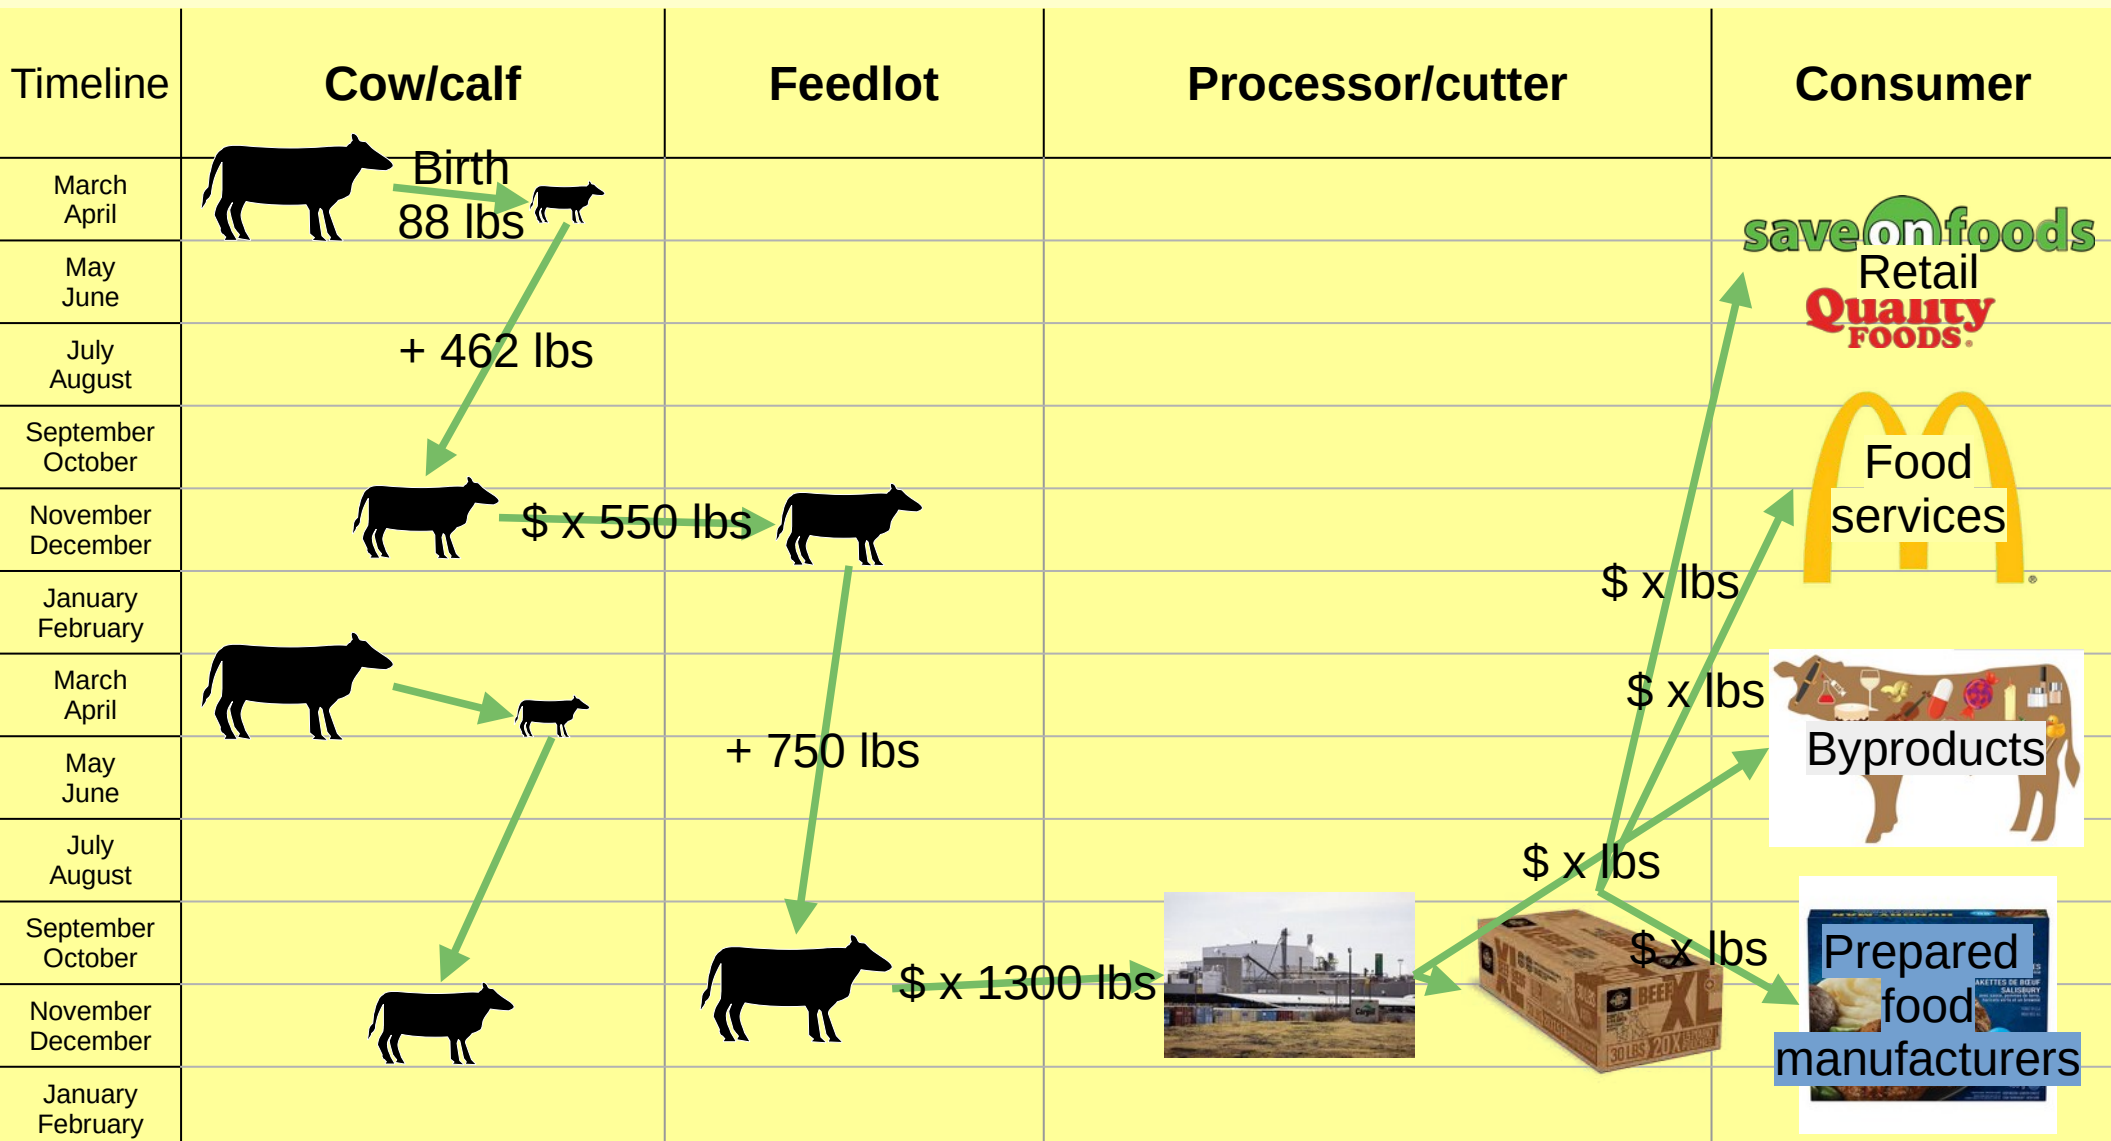

Founder and President
Flokk Systems

Flokk Systems:

- Alberta AgTech startup
- Digitizing livestock herd traceability, sustainability, and management
- Focused on commercial cow/calf
- Two years testing complete
- Now commercializing

Beef production

Maximizing livestock returns

Maximize revenue:

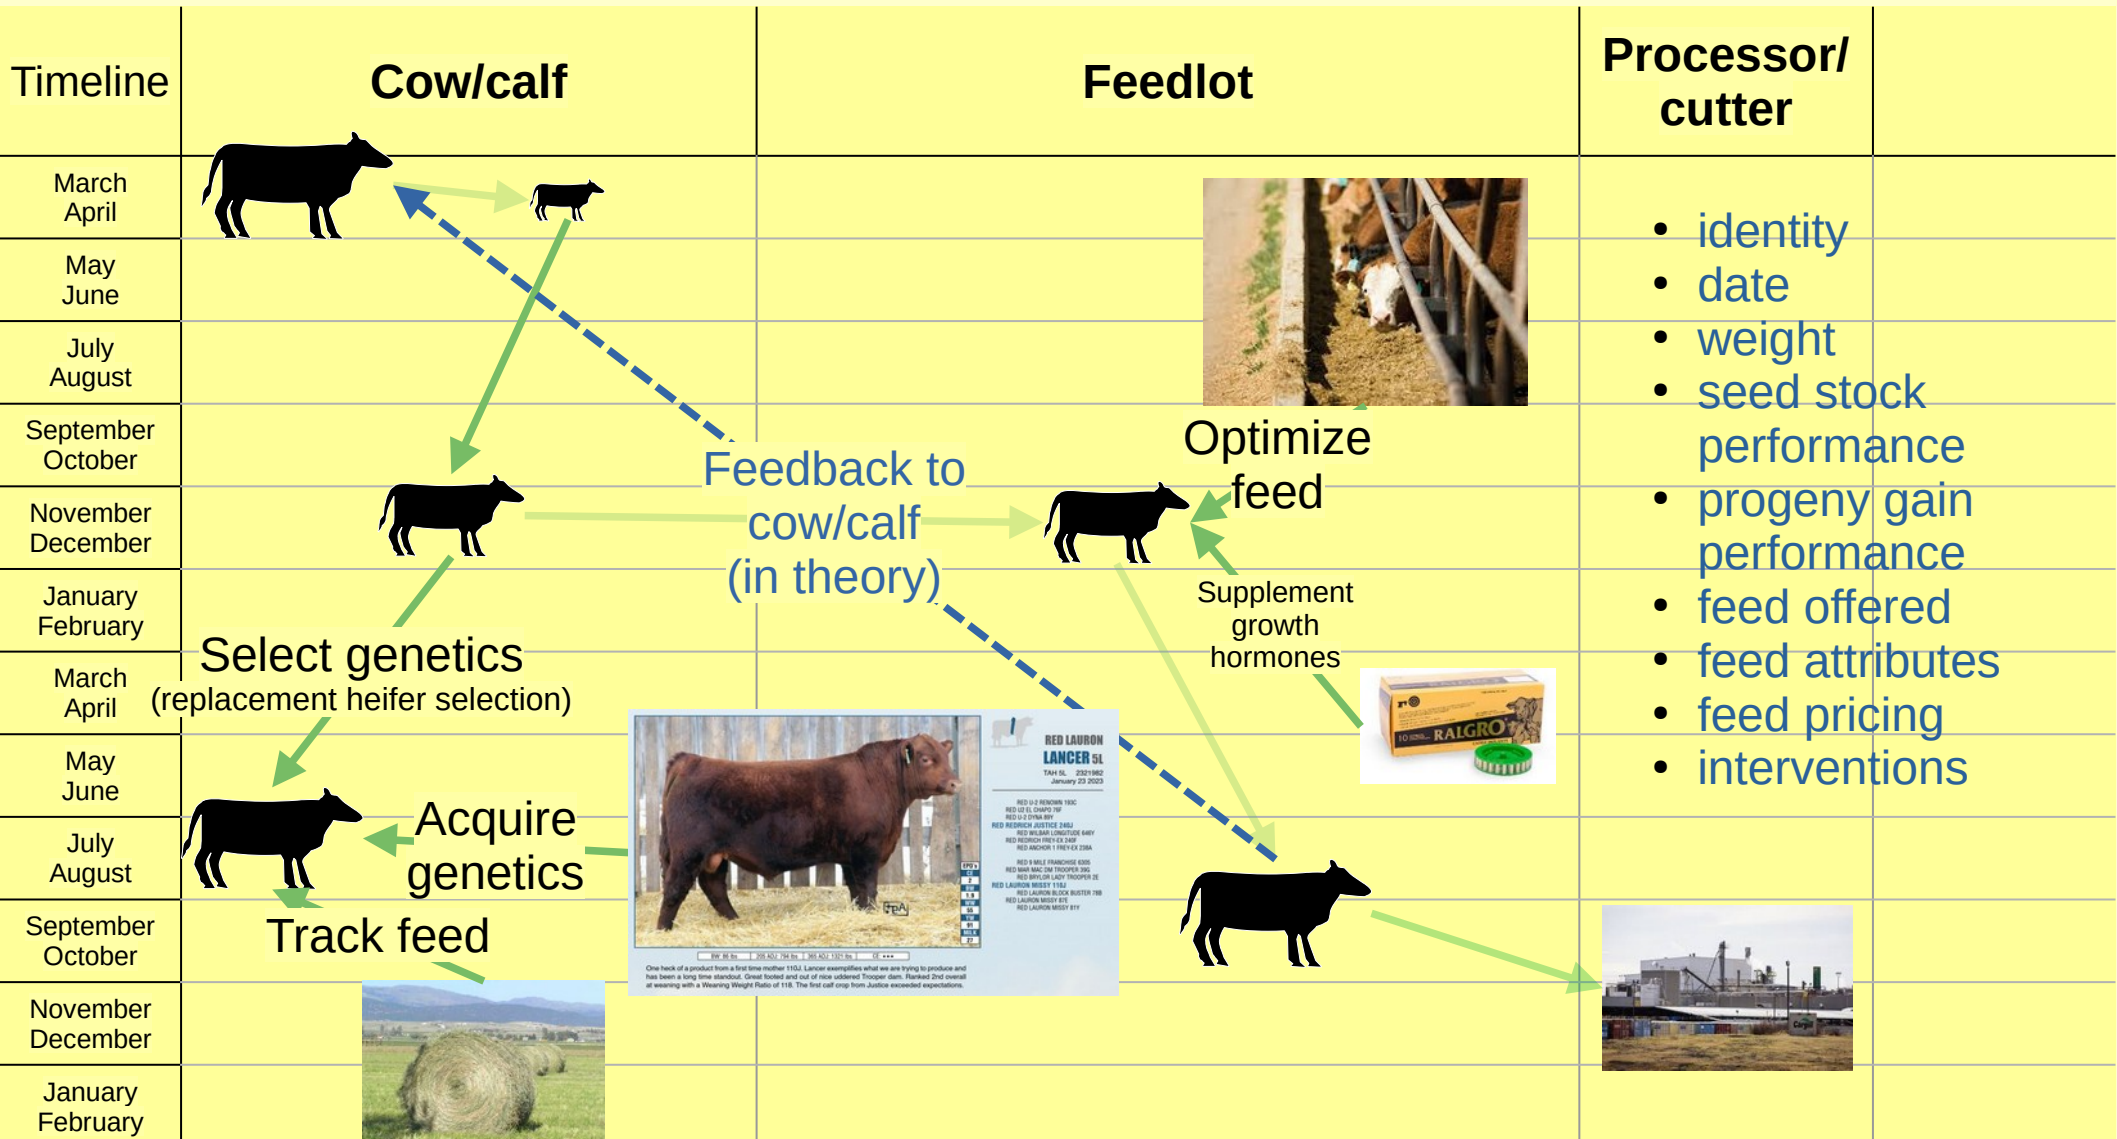

- Feeder/slaughter/carcass/retail weight
- Price
- Sustainability incentives

Maximizing livestock returns

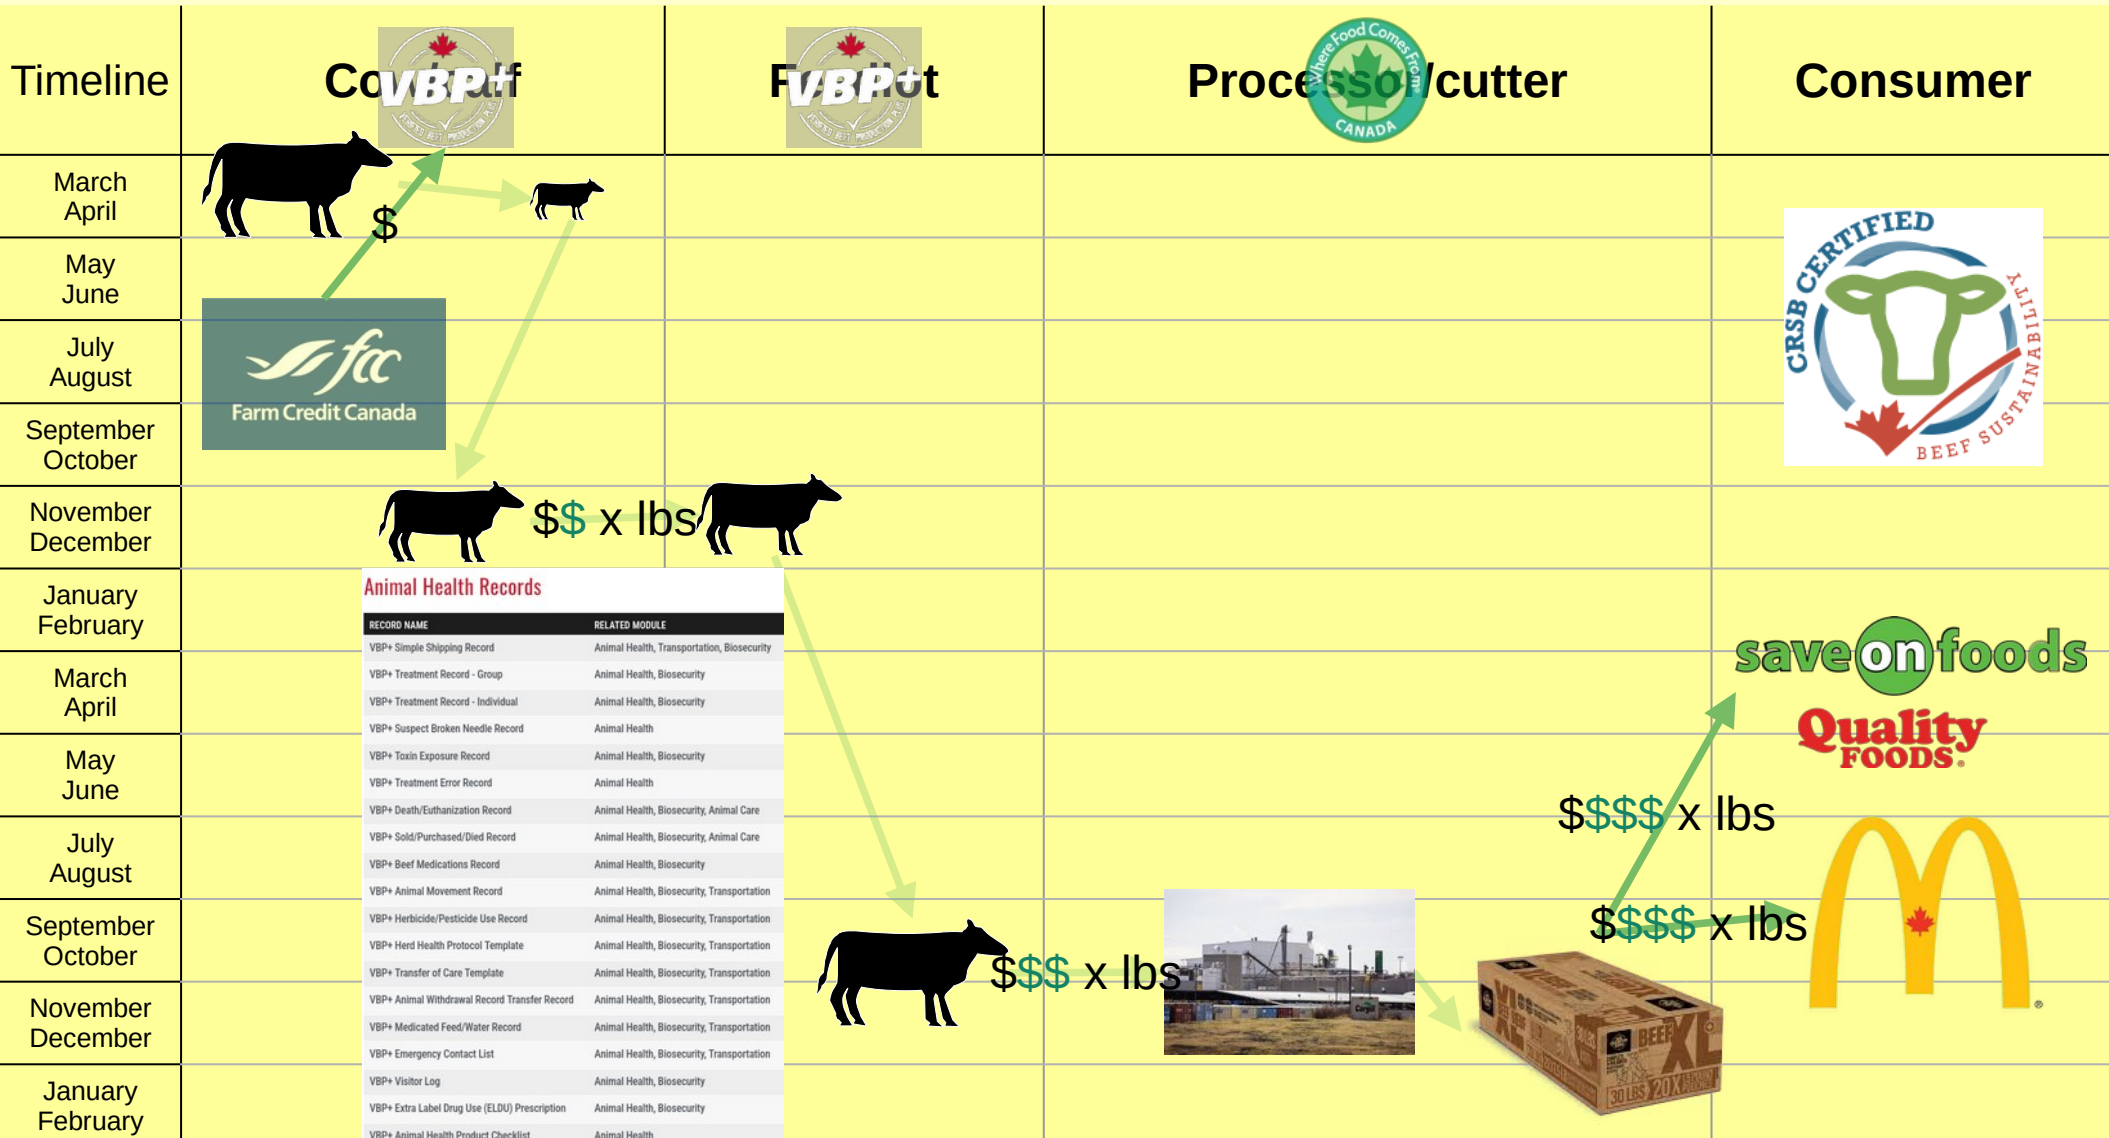

Minimize cost:

- Feed
 - lbs weight gained / cost feed consumed
- Maternal efficiency
- Labour
- Interventions
- Traceability submissions
- Capital

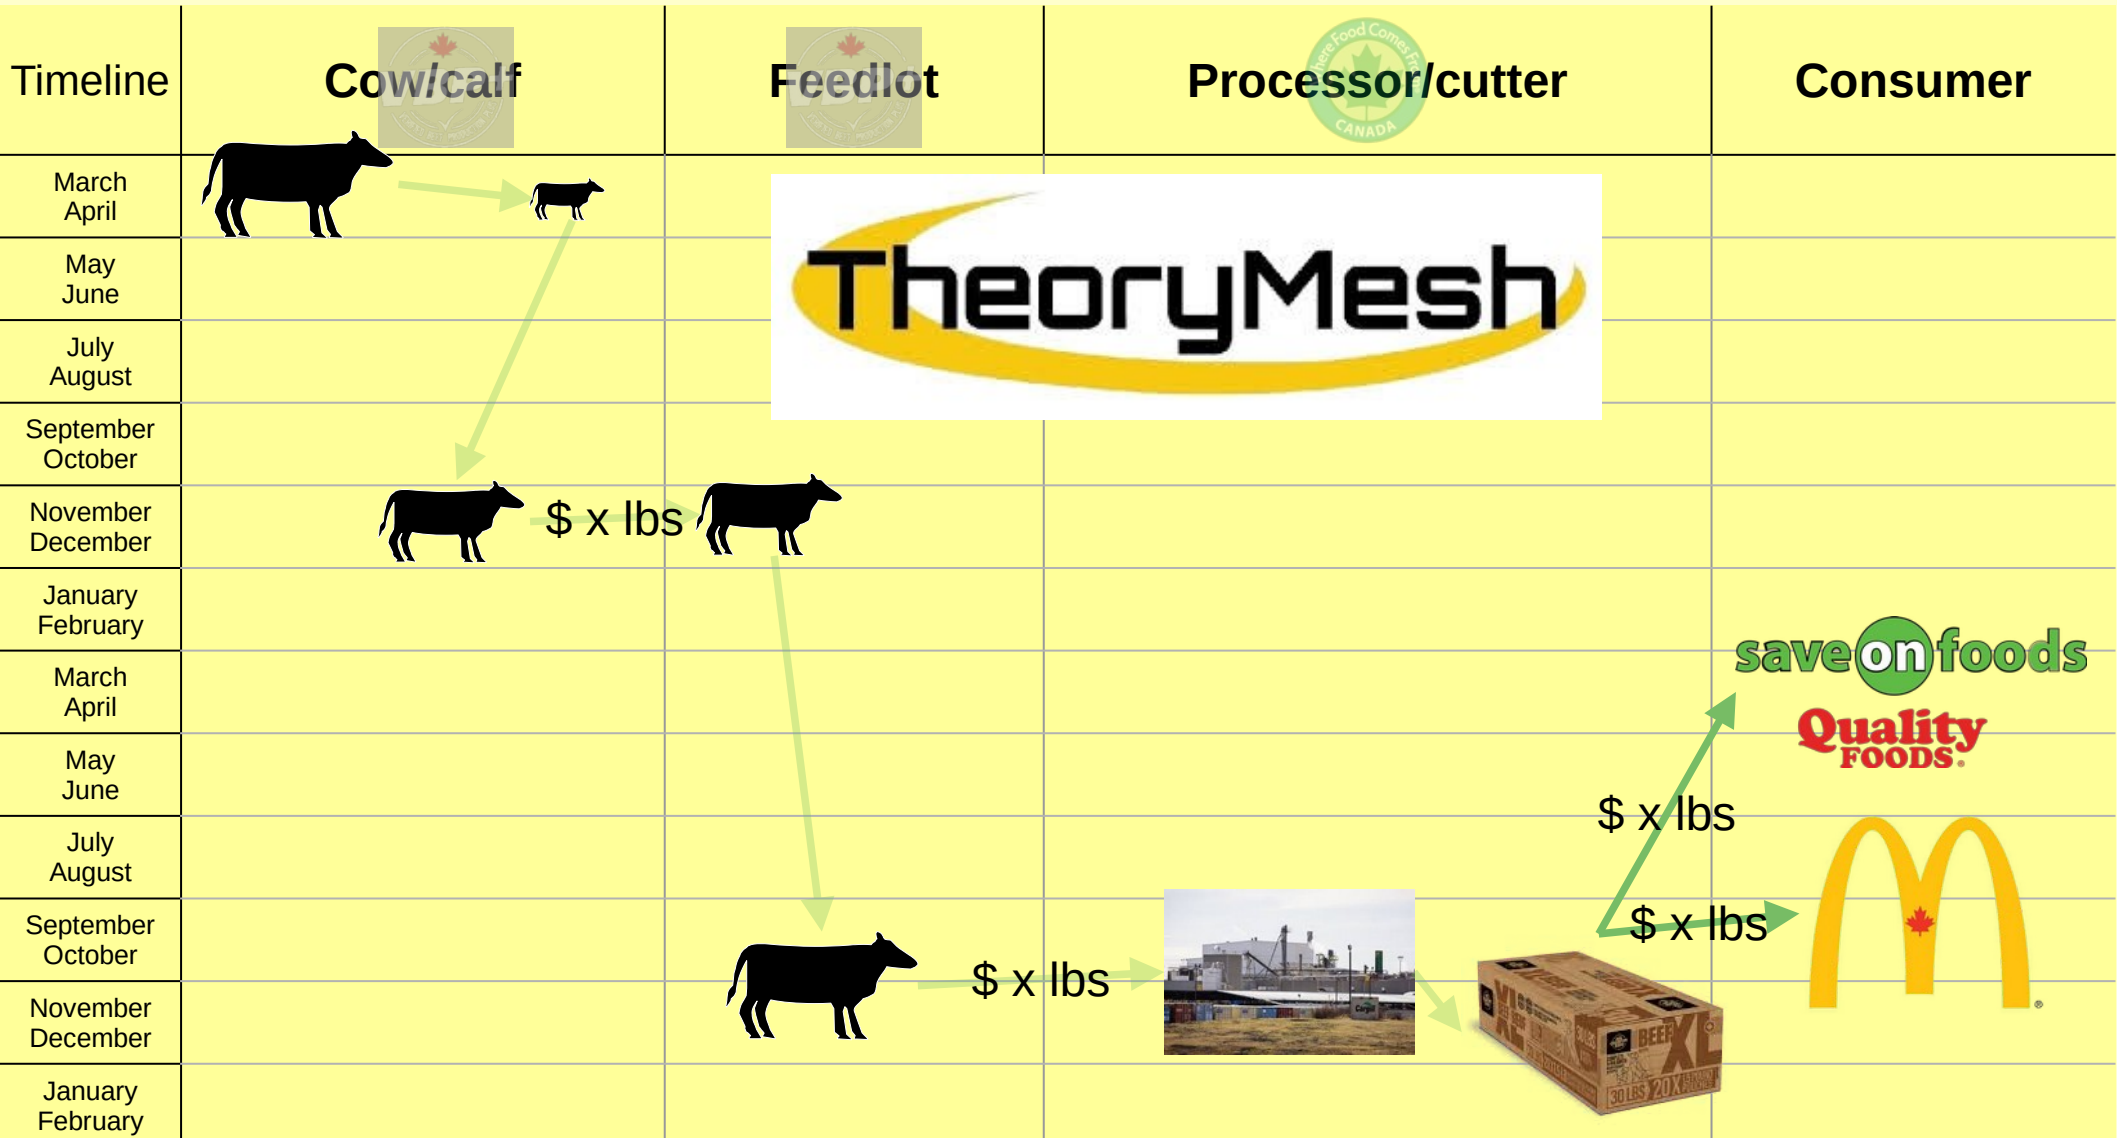

Income: Maximizing weight gain

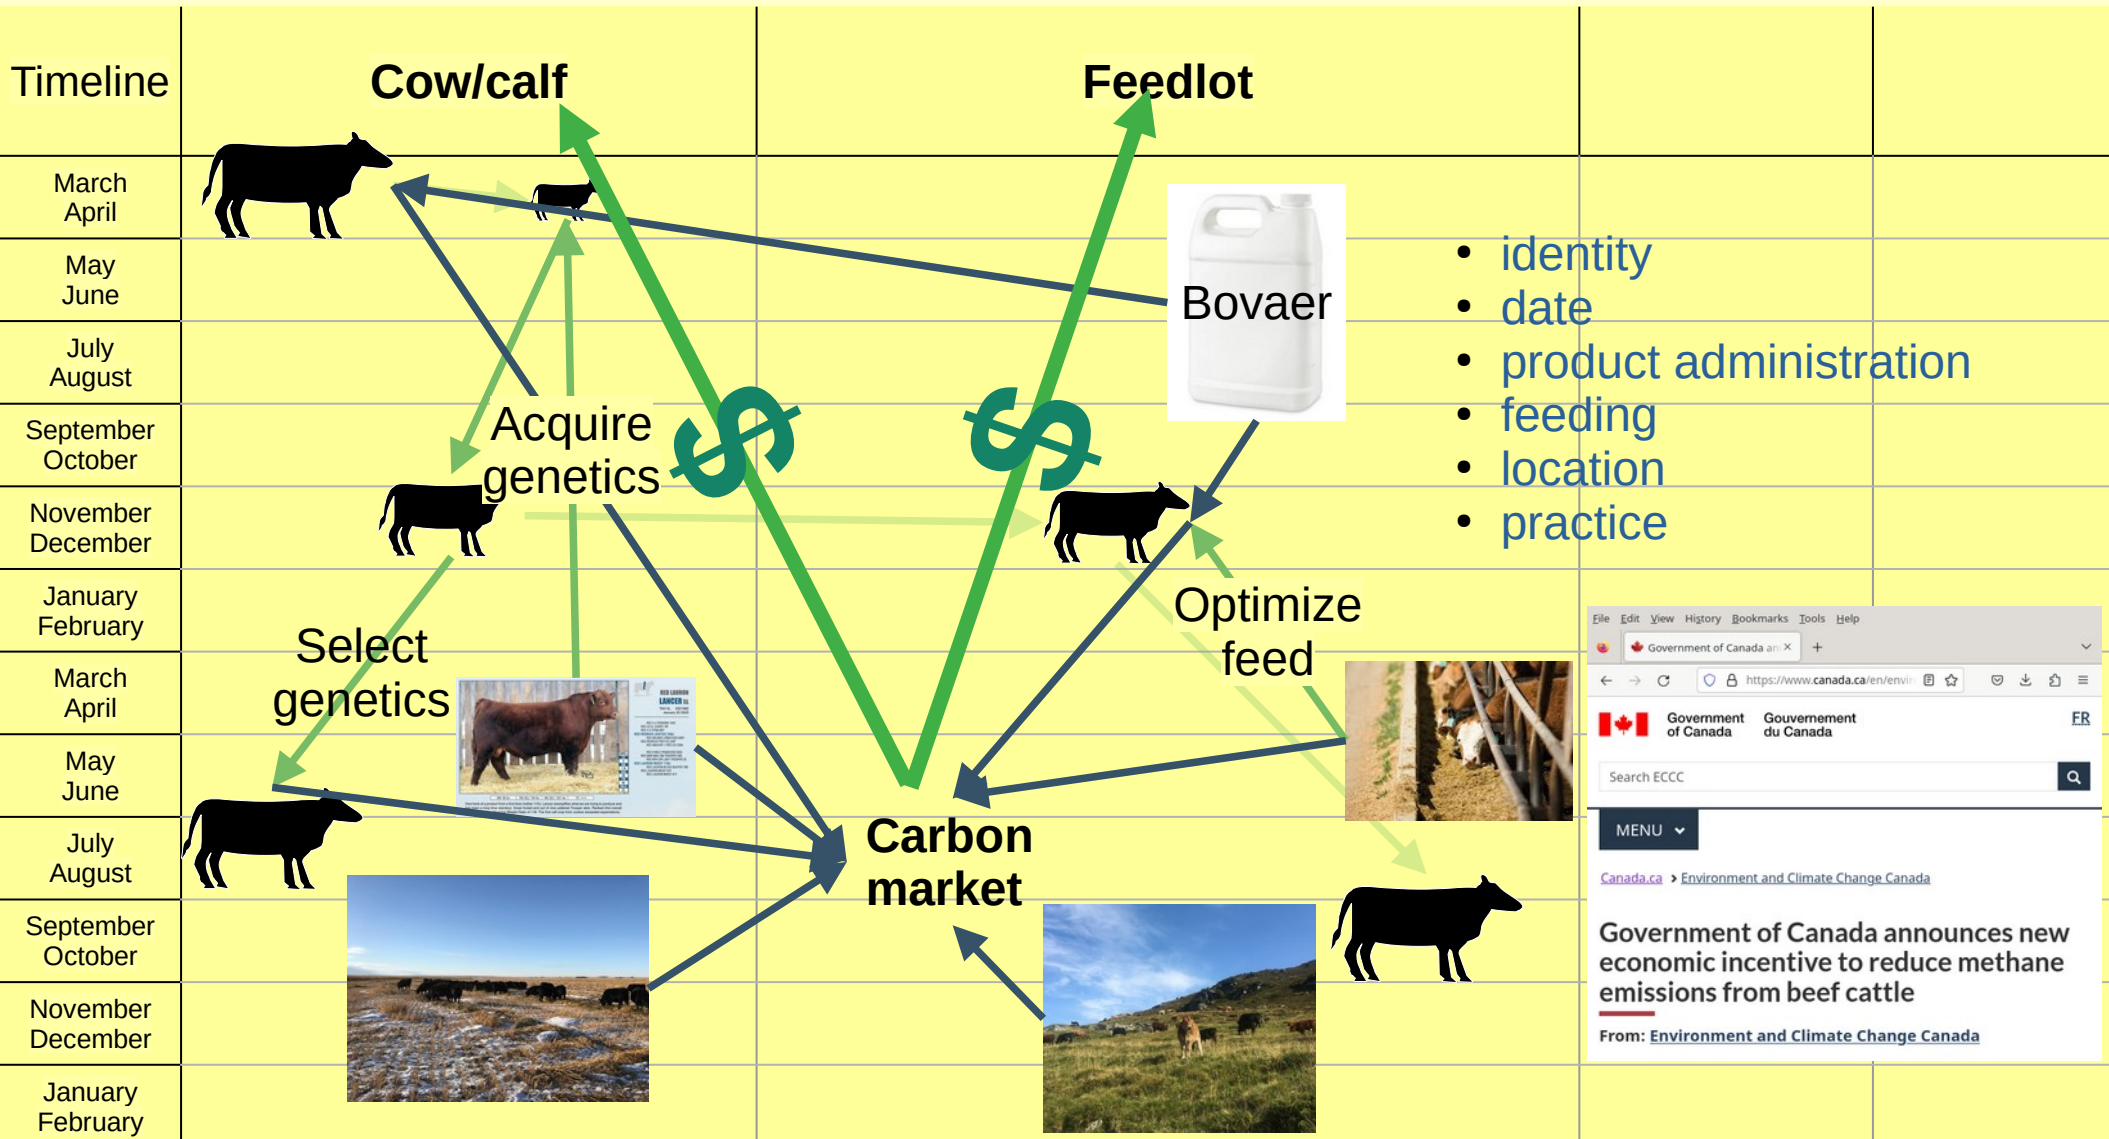

Income: Sustainability certification

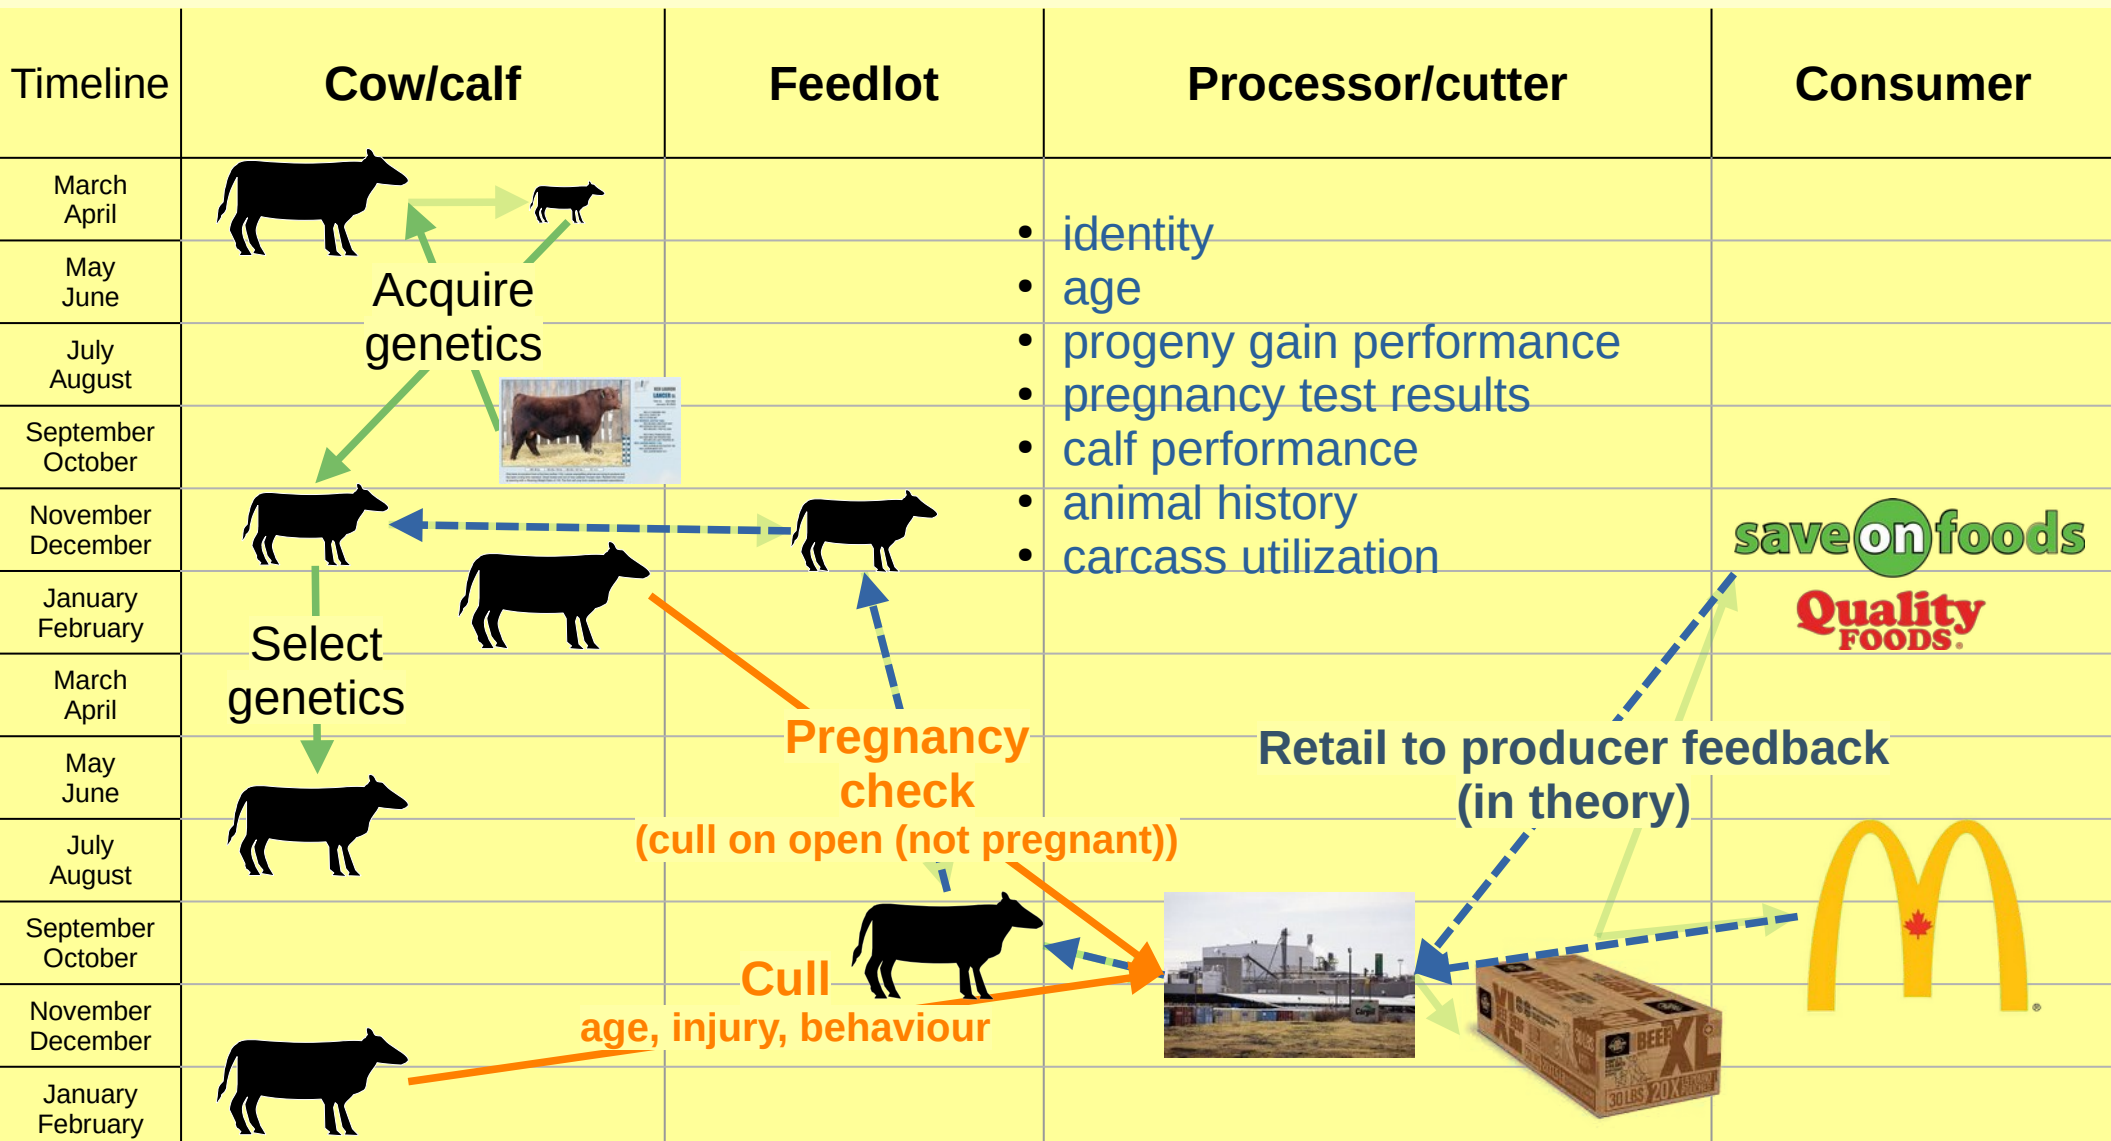

Income: Sustainability assertion

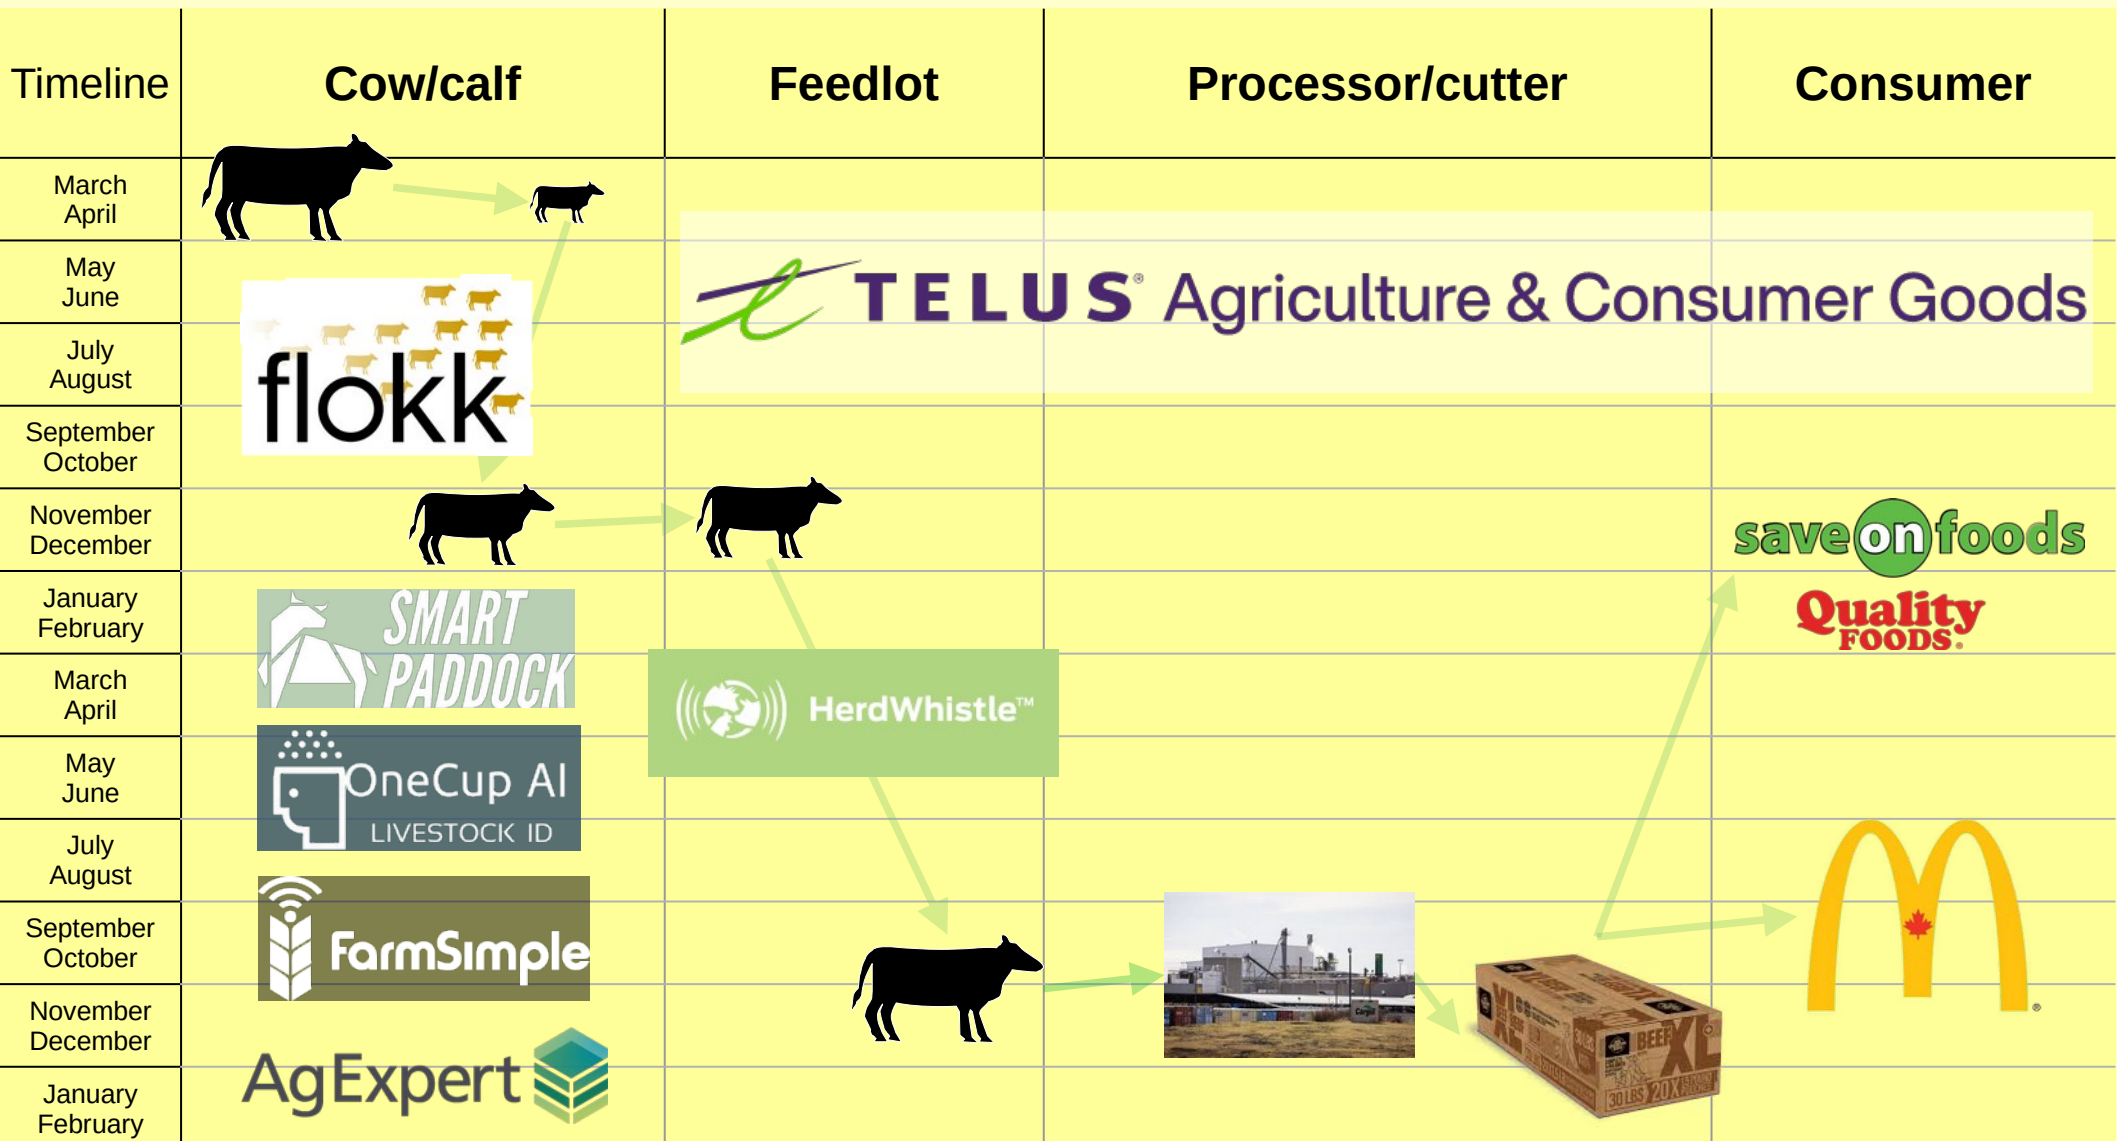

Income: Sustainability incentives

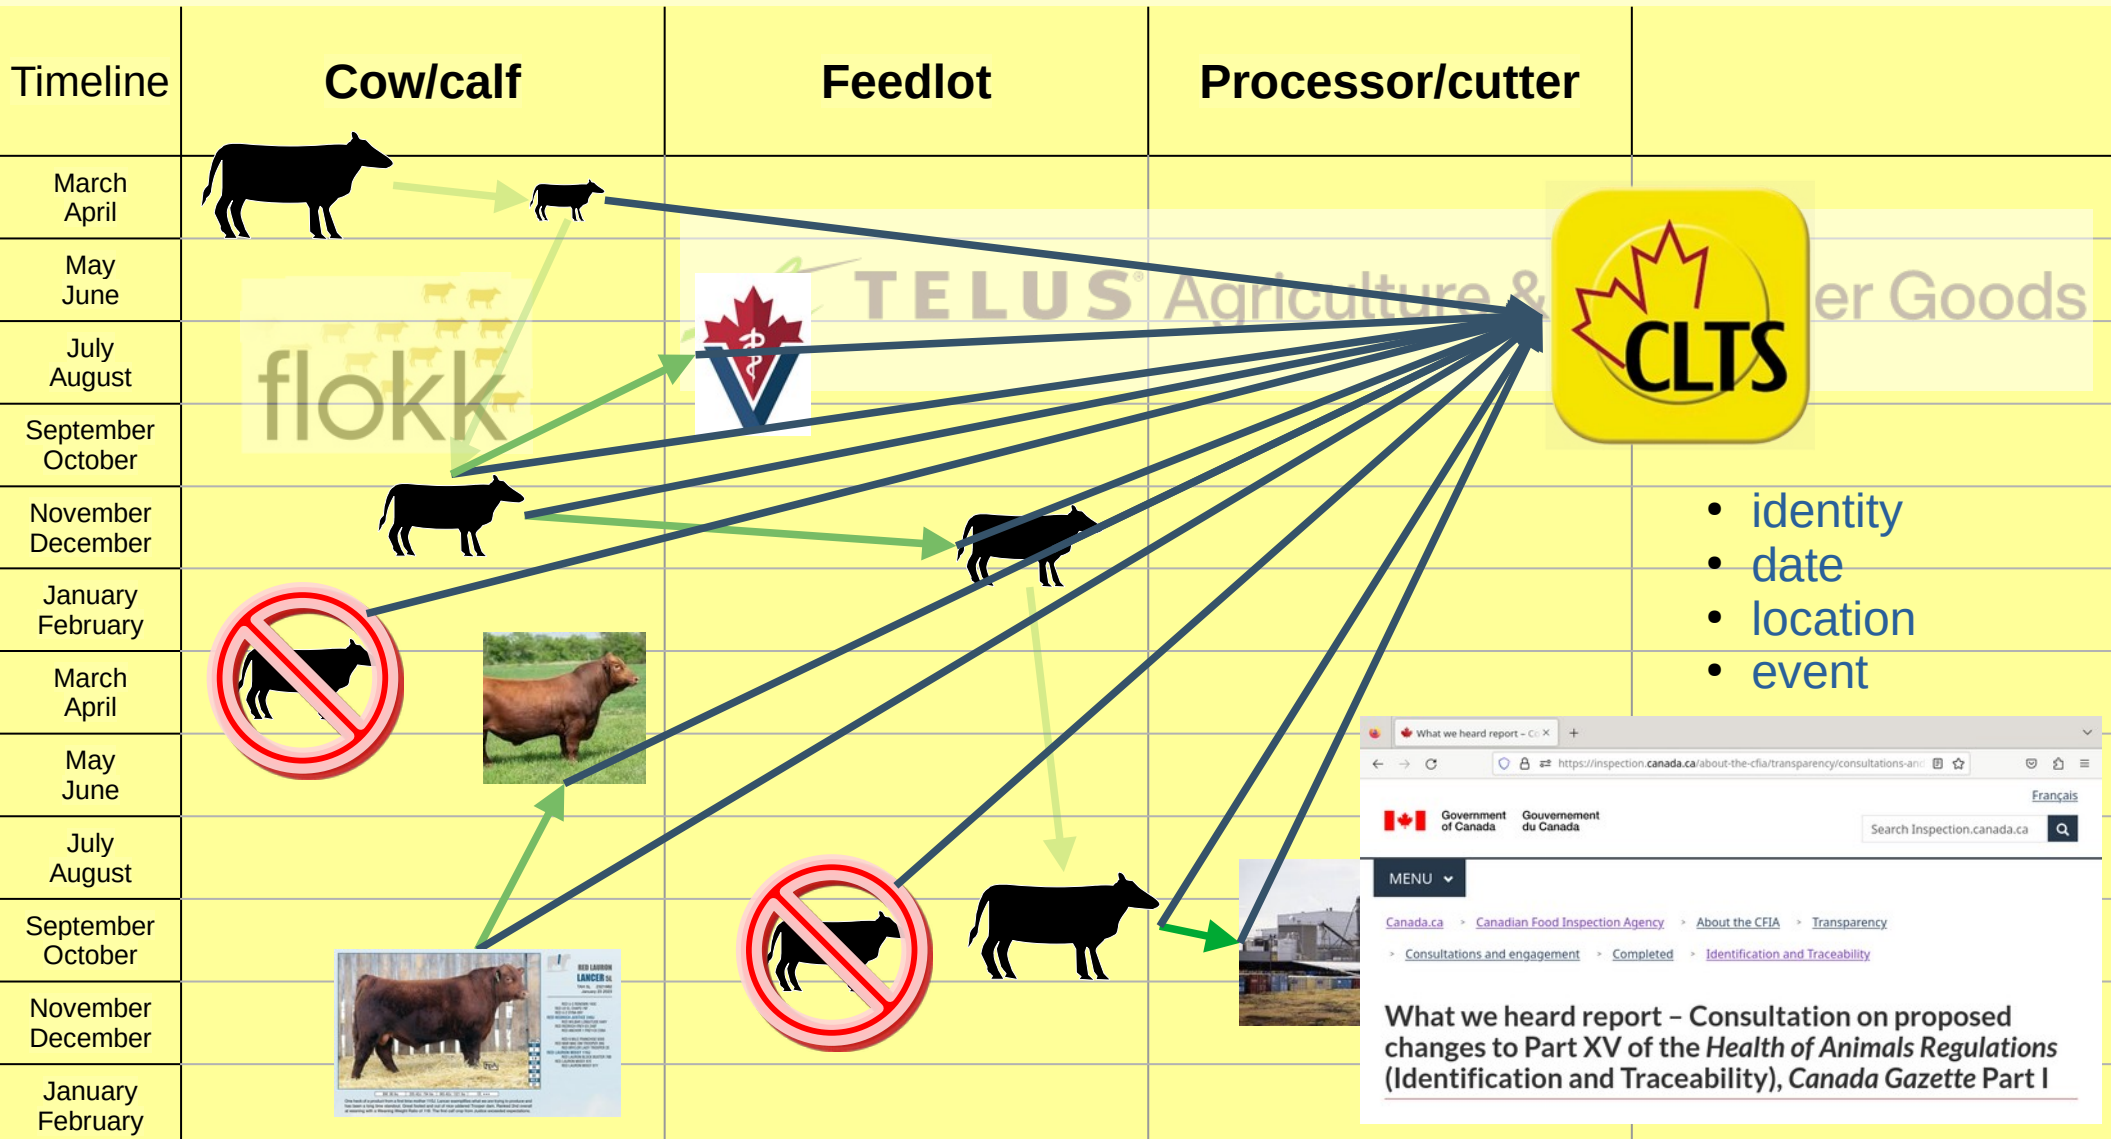

Costs: Maternal efficiency

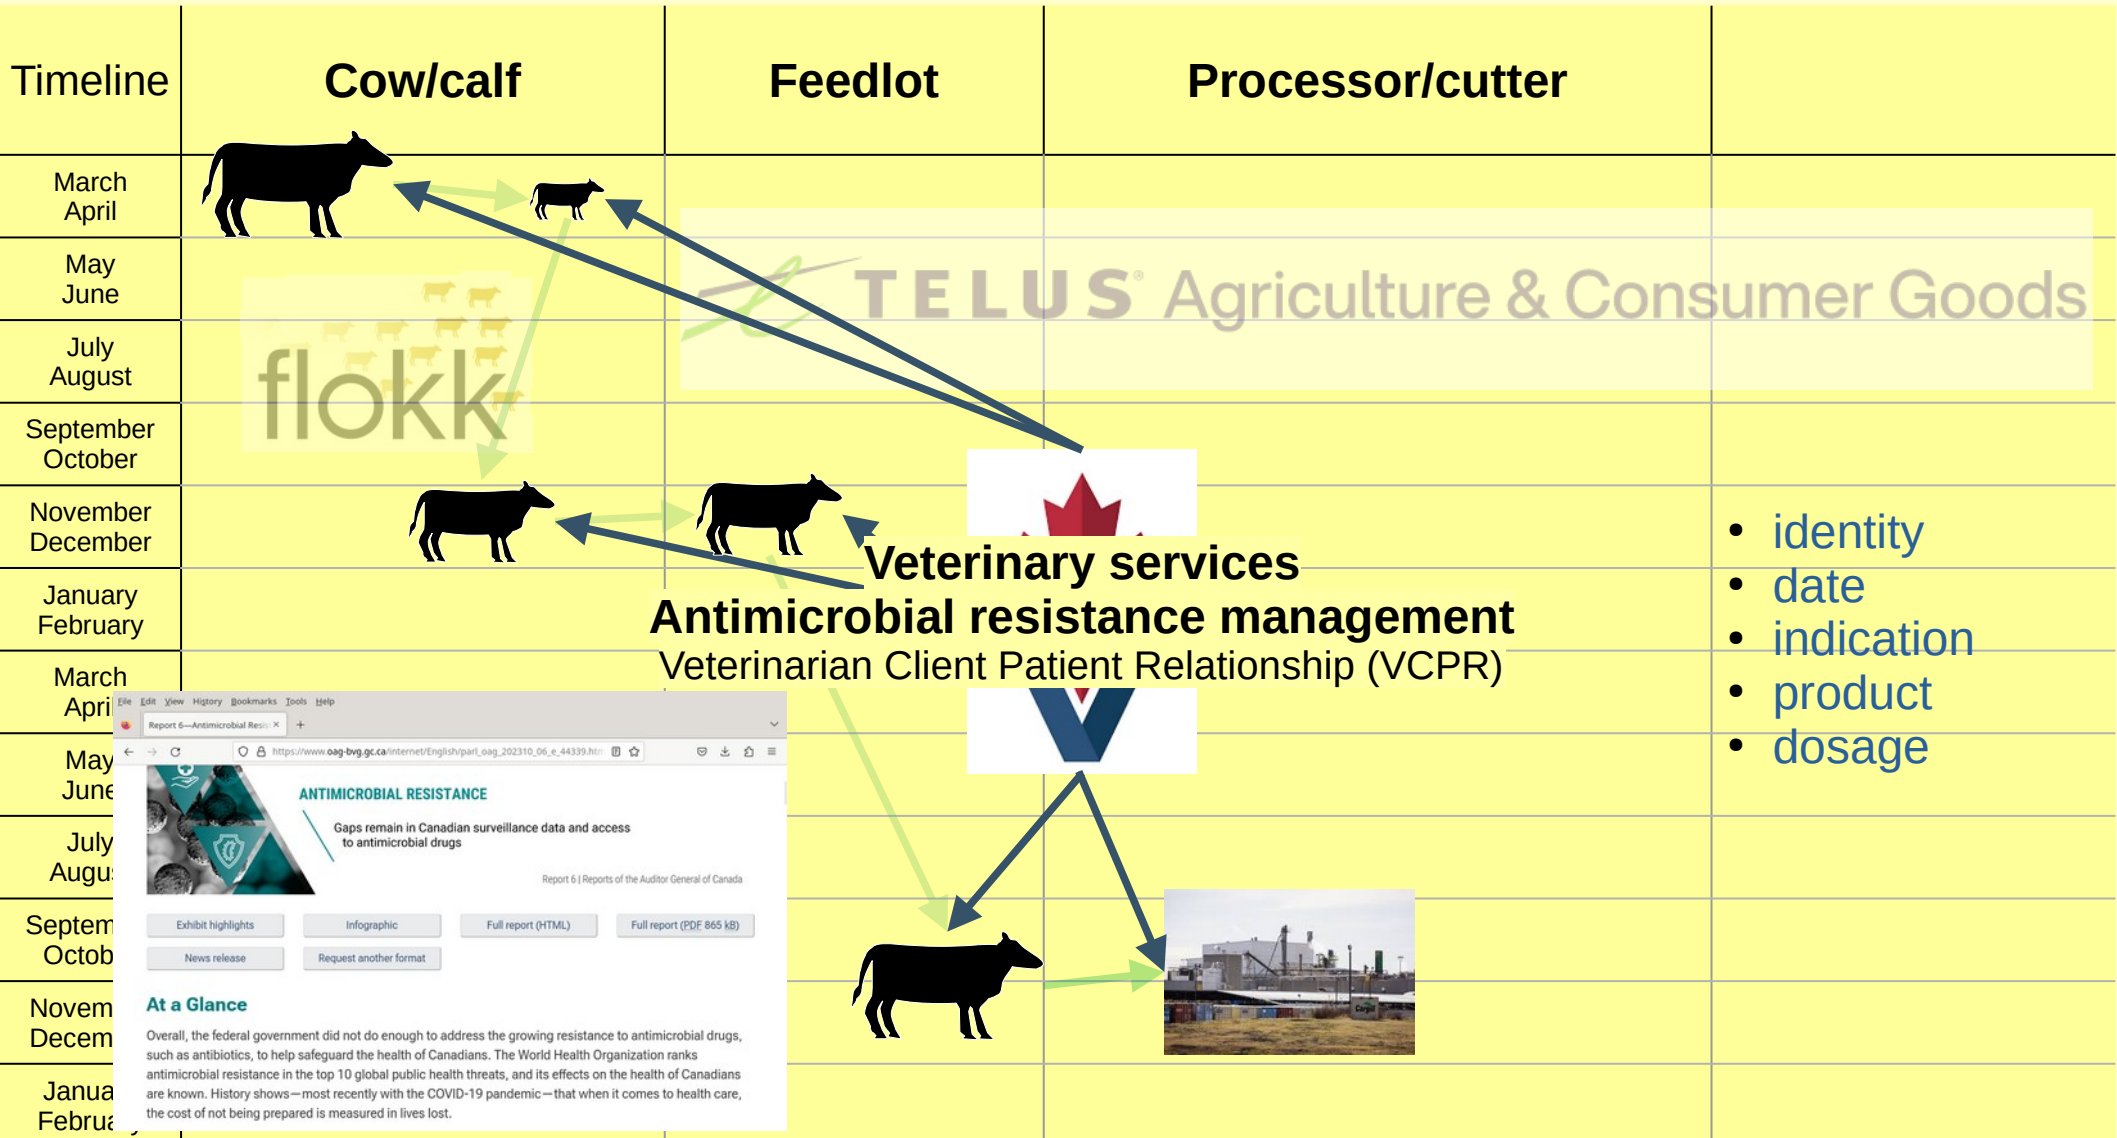

Costs: Labour

Cost: Traceability submissions

Costs: Interventions

Animal inventory: flokk.ca/wizard

The screenshot shows a web browser window with the URL `https://service.flokk.ca/wizard/default/herd`. The page title is "Flokk" and the navigation bar includes "Owner", "Add animal", "Calving", "Premises", "Vehicles", "Medication", "Herd", "Cancel", and "Complete". The main heading is "Herd" with a sub-link "Animals". Below this is a search bar with a "+ Add Record" button, a search input field, and "Search" and "Clear" buttons. A message indicates "242 records found". The table below lists animal records with columns for Hang Tag, Display, Dam, Birth date, Gender, Location, and Events. Each row has buttons for View, Edit, and Delete.

Hang Tag	Display	Dam	Birth date	Gender	Location	Events	View	Edit	Delete

Machine learning opportunities

Feeder calf marketing

- Comprehensive animal history and immutable animal weight
- Optimize for current market demand

Genomic supported replacement heifer selection

- Correlate performance attributes against gene sequence
- Use to select replacement heifers and bulls to achieve desired performance

Antimicrobial resistance management

- Record and report every indication and administration
- Manage/reward by exception
- Restore farm retailer distribution of antibiotics

Authoritative ownership without physical alteration (branding)

- Extend CLTS
- Assert legitimacy of possession through provenance of CCIA tag

**Herd
sustainability,
traceability, and
management
where it belongs.**
